(State Only)

(Applies to Civil Service and Foreign Service Employees)

3 FAH-1 H-1113 REGULATORY REQUIREMENTS

(CT:POH-109; 04-20-2005)

(State Only)

(Applies to Civil Service and Foreign Service Employees)

- a. The issuance of all Department directives is governed by regulations

published in 2 FAM 1110. Should conflict arise, 2 FAM 1110 takes precedence over the procedures in this subchapter. In addition to other information the 2 FAM 1110:

- (1) Provides that "all written communications that establish and prescribe the organization, policies, regulations, or procedures that provide an official basis of operations must, with certain exceptions approved by The Office of Directives Management (DIR), have their basis in applicable legal authorities and the Foreign Affairs Manual" (FAM);
 - (2) Requires that all guidelines, internal or standard operating procedures, which in any way involve the function of other bureaus, offices, or staffs, be submitted to A/RPS/DIR for analysis, editing, and approval prior to publication, and that A/RPS/DIR's determination that a proposed issuance must be published in the FAM or FAH is final and binding. The Office of Inspector General(OIG) is exempt from the requirement to submit its OIG internal directives to A/RPS/DIR for approval, in accordance with (5 U.S.C. Appendix); and,
 - (3) Prohibits the use of Department Notices, memoranda, or telegrams to establish or modify regulations unless the actual regulation has been submitted to A/RPS/DIR for publication. A/RPS/DIR approves such use on a case-by-case basis. Such use extends for 90 days only and is not subject to renewal. (See 2 FAM 1115.2.)
- b. As a general rule, A/RPS/DIR will not approve the issuance of internal or standard operating procedures or Department Notices that seek to regulate (either directly or indirectly) the functions of another office, bureau, or post (even with the affected unit's clearance). Department policy requires that such material be published in either the FAM or FAH in order to have regulatory force and effect.
